

Tri-County Electric Cooperative
PO Box 626
Rushford, MN 55971

Owner
Tri-County Electric Cooperative

This project consisted of a 78,300 SF office, shop and maintenance facility. The office was constructed of thru-wall brick with joist and deck roof system. The shop and maintenance facilities were constructed of insulated precast wall panels with steel joist and deck roof system. Other unique features include an underground geothermal heating/cooling system and an underground tank providing water for the fire suppression system. There was also 30,000 SF of exterior paving.
