Kwik Trip Inc.**

This project is a 5,000 square foot wood framed food testing lab, with the exterior consisting of brick and block with a shingled roof. The building includes eight (8) labs, three (3) offices, one (1) receiving area, and one (1) break room/bathroom area. The building is equipped with urethane flooring, R.O. and D.I water systems, fume hoods, autoclaves, incubators, and an HVAC system with Heppa filters. This project was on a tight time schedule and was completed in three (3) months.
