

**River Steel Inc.  
1115 Industrial Drive  
West Salem, WI**

**Owner  
Tim and Gloria Brennan**

The project consisted of a 35,000 sq. ft. manufacturing facility and a 20,000 sq. ft. two story office with an elevator. This was a structural steel building with the exterior finishes including: metal wall panel, split faced masonry, precast, and glazing. The interior office finishes were quite unique with exposed bar joist ceilings and polished concrete floors throughout.
