

**Merchants Bank
316 Main Street
La Crescent, MN**

**Owner
Merchants Bank**

This project was a 3,000 sq. ft. addition and remodel that required business operations not to be interrupted. The addition was on both ends of the building which included relocating the drive-through lanes. It was a total remodel of the interior and exterior of building. The major challenge of this project was to keep the bank open during construction and it did not close, not even one day.
