Luther High School**

This project was a 41,000 sq. ft. addition which included a 12,000 sq. ft. gymnasium with bleacher capacity for 960 people; boys and girls locker rooms and restrooms; concession area; two mezzanine areas; and room for future classrooms. Construction work was performed during the school year with no disruption to daily operations. Luther High School used owner direct purchase orders to take advantage of tax savings.
